

## GRIZZLY BEAR REGULATIONS

By order of the Montana Fish and Game Commission, the following regulations are adopted to provide the basic information necessary to establish and maintain management programs for the grizzly bear:

Hunters taking grizzly bears must obtain the hide and head from each specimen. Regardless if the head has been damaged, it still must accompany the hide.

Within ten (10) days after taking a grizzly bear, the hide and skull must be presented to department personnel for examination and tagging of each.

The tagged hide shall be returned immediately to owner. The metal tag will remain on the hide until returned from the tanners. Untanned hides shall retain tag for a minimum of one year.

The tagged head shall be held for immediate shipment to the Fish and Game Department Wildlife Laboratory for processing. Heads will be returned to the owners within a period of one year. The tag is to remain attached to a cleaned skull for at least a period of one year.
